

SHOVAN NANDI

Senior Associate Projects | Lead Laravel Engineer

Kolkata, West Bengal, India | +91 83483 38409 | shovannandi95@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with 8 years of professional experience, including 7 years of experience building secure and scalable applications using PHP 8, Laravel, Livewire, Filament, and Node.js. 1 year of hands-on experience designing and managing production infrastructure on AWS, including EC2, S3, RDS, Elastic Load Balancing, ElastiCache, and Route 53. Experienced in building CI/CD pipelines with GitHub Actions, managing application secrets and environment configurations, and deploying Laravel, Node.js, React, and Next.js applications on AWS and Railway. Experienced in working directly with enterprise clients and managing projects from requirement gathering and development through deployment and production support.

CORE SKILLS

Backend & API Development: PHP, Laravel (Livewire, Filament), Codelgniter, Node.js, RESTful API design, third-party API integration (CRM/Payment/SMS etc)

Cloud Infrastructure: AWS (EC2, S3, RDS, Load Balancer, ElastiCache, Route 53, IAM), Digital Ocean (Spaces), Railway

CI/CD & Version Control: GitHub Actions (pipeline design, build/test/deploy automation), Git, GitHub

Storage: Object storage (S3, DO Spaces, Cloudflare R2)

Databases: MySQL, PostgreSQL — schema design, query optimization, performance tuning

Integrations: Payment gateways, SMS gateways, CRM platforms, webhook-based data sync

Scripting & Automation: PHP-based automation scripts for deployment tasks

AI-Assisted Workflows: Claude, Antigravity, Gemini — used daily for planning, development, debugging, and code review

PROFESSIONAL EXPERIENCE

Senior Associate, Projects — Notebrains, Kolkata - Nov 2023 – Present

- Serve as sole technical point of contact for enterprise clients, directing 5+ concurrent projects from scoping through deployment, including cloud infrastructure setup and third-party API/CRM integrations.
- Architected and maintain CI/CD pipelines in GitHub Actions, automating build, test, and release workflows across client projects to enable reliable, repeatable deployments.
- Own the full project lifecycle — requirements scoping, development, QA, UAT, and production release.
- Coordinate cross-functional development, QA, and design teams and manage account-level client relationships, improving delivery predictability and client retention.
- Integrate AI-assisted development tools (Claude, Antigravity, Gemini) into daily workflows to accelerate feature development, debugging, and code review.
- Authored and published two open-source Laravel Filament plugins, both listed in the official plugin's directory.

Web Developer — OMM Software Innovation, Pune - Feb 2022 – Sept 2023

- Integrated payment gateway and SMS gateway APIs across multiple client platforms, enabling automated transaction processing and customer notifications.
- Designed and built custom admin dashboards in Laravel and MySQL for multiple enterprise clients, streamlining internal reporting and data management workflows.

Web Developer — Mridaya IT Services, Kolkata - Feb 2020 – July 2021

- Developed reusable backend components and RESTful APIs, reducing duplicate development effort across projects.
- Built and maintained scalable multi-tenant platforms using modular HMVC architecture in Laravel, supporting multiple client instances from a shared codebase.

Splunk Developer — Trivid Technology Services, Kolkata - Aug 2019 – Feb 2020

- Built log management and monitoring dashboards in Splunk, improving visibility into system performance and operational issues.

Web Developer — Fusion Techlab, Kolkata - Jan 2019 – July 2019

- Developed and maintained PHP/Laravel web applications for client projects, contributing to backend feature development and bug fixes.

Web Developer — RL Infocomm Private Limited, Durgapur - July 2018 – Dec 2018

- Started career building PHP-based web applications, gaining foundational experience in backend development and database design.

KEY CLOUD INFRASTRUCTURE PROJECTS

Business World — 16-Site Community Web Platform

- Designed and built complete cloud infrastructure on AWS for a network of 16 community websites.
- Provisioned and managed EC2 instances, Elastic Load Balancer for traffic distribution, RDS for relational data, S3 for static/object storage, ElastiCache for application caching, and Route 53 for DNS.

OPEN-SOURCE CONTRIBUTIONS & ACHIEVEMENTS

- Menu Manager — Published on Packagist and listed in the official Filament plugins directory: www.filamentphp.com/plugins/notebrainslab-menu-manager
- Email Templates Management — Published on Packagist and listed in the official Filament plugins directory: www.filamentphp.com/plugins/notebrainslab-email-templates-management

EDUCATION

- B.Tech in Computer Science — Mallabhum Institute of Technology, Bankura, West Bengal (2014 – 2018)
- Higher Secondary — Samanta Khanda HK Roy High School, Hooghly, West Bengal (2012 – 2014)
- Secondary — Khatul Shiba Durga High School, Hooghly, West Bengal (2011 – 2012)
